Product Manager with six years of experience building consumer and B2B SaaS products across property technology and AI, with a track record of delivering measurable outcomes at scale in fast-growing organisations.

EXPERIENCE

Bayut.com

Dubai, UAE

UAE's leading classified portals with 1500+ employees and 100+ Million USD in Revenue

Product Manager - AI SaaS Products

2024 – 2025

- Developed and executed GenAI product strategy for listings, leading 10+ cross-functional stakeholder teams to automate property listings, image ordering, and property descriptions, reducing time-to-list by 17%
- Built a scalable upsell mechanism by converting an internal client-tiering model into a customer-facing tool showing clients their current tier, upgrade pathways, and associated potential benefits, driving a 38% increase in account upgrades
- Created in-house and rolled out enterprise-wide, an AI-generated call insights tool to automate call summaries and calculate customer quality scores for enterprise clients, enabling clients to improve sales by 15% across call-driven leads

Product Manager – Property Consumer Mobile Applications (iOS and Android)

2022 - 2024

- Shaped the product vision for property listing pages to serve multiple decision-makers within a household, each with distinct priorities, by identifying key user segments and tailoring content such as nearby schools and amenities to their needs
- Launched localised native apps to expand user base of Chinese and Russian customer segments by leading a team of 30+ cross-functional members, increasing reach by 11% in a segment growing 9% annually
- Developed an agent-ranking algorithm using user insights to improve real estate agent visibility and consumer trust, increasing client retention by 19% annually
- Drove mobile data-enrichment initiatives to improve pricing transparency and transaction speed for property seekers, such as surfacing historical market data and insights in property listings, increasing App Store ratings to 4.8/5
- Improved the user acquisition funnel by redesigning authentication with Google/Apple single sign-on and multi-factor authentication, lifting sign-up conversion from 1% to 23%

Junior Product Manager - Property Consumer Mobile Applications (iOS and Android)

2021 - 2022

- Improved property search efficiency by introducing a filter bar to provide quick access to high-usage filters, improving time-to-first-lead by 30% and increasing leads per session by 75%
- Designed guided onboarding highlighting key property search criteria for new users, reducing search-to-ad-detail drop-offs by 23% and increasing property leads by 9%

Product Associate - Content Products

2020 - 2021

- Revamped key content sections (e.g., area and building research pages) to improve navigation and discovery, increasing classifieds portal traffic by 16% annually

SilkBank Limited

Lahore, Pakistan

Commercial Bank focused on consumer products with 1000+ employees

2018- 2020

Assistant Product Manager - Consumer Products

- Developed promotional campaigns for the consumer credit line product, driving an 11% increase in customer spend
- Streamlined issuance of 400k+ Europay, Mastercard, and Visa cards while ensuring full regulatory compliance
- Assessed the performance of the branch network to identify and recommend corrective actions, reducing expenses by 5%

EDUCATION

INSEAD

Fontainebleau, France

Master of Business Administration (graduating June 2026)

2025 - 2026

- Clubs: Technology Media and Telecom, Women in Business, and AI club
